Introducing MBUX

MBUX multimedia system with DAB digital radio

Multi-gesture touchpad control

Introducing MBUX, the brand new Mercedes-Benz User Experience infotainment system that can be controlled via voice and touch input. The new A-Class was the first model to feature this innovative way of communicating with your Mercedes-Benz.

MBUX (Mercedes-Benz User Experience) infotainment system comprises:

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
 - MBUX is able to understand different accents and will adjust to you over time
 - MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you
-

Personalisation

- Turn the new A-Class into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
 - Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
 - Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work
-

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
 - The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently
-

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX – it will tell you the answer
-

¹LINGUATRONIC off-board functions are currently only available for three years
